

## KEEPING YOUR LUGGAGE ORGANIZED

With this new range of luggage Castelli is aiming at the passionate and competitive cyclist. This project started four years ago when we felt a true cycling luggage set didn't exist.

We collected feedback and compiled all positive and negative travelling experiences to develop the luggage.

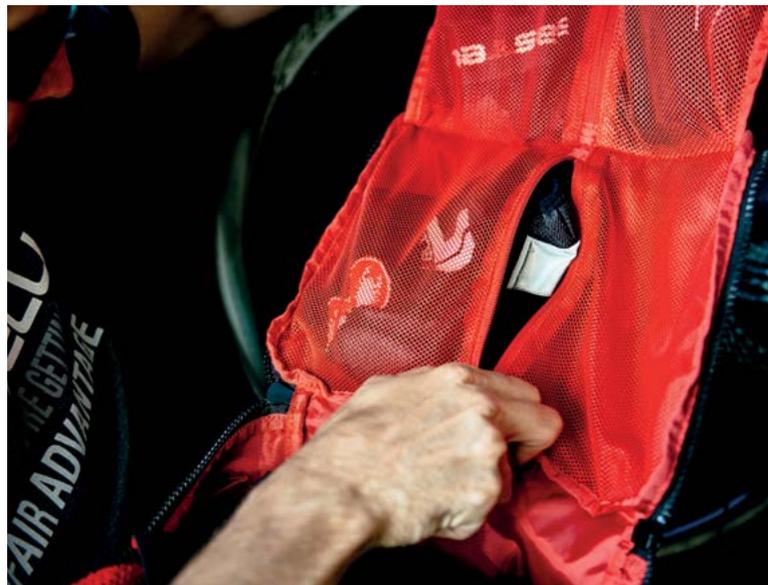

Castelli's bag collection is constructed from incredibly strong and water resistant materials, smart design, and enough storage space to handle any contingency you might encounter.

Regarding travelling the range includes two different rolling travel bags, a duffle bag and a backpack.

A cleverly designed race rain bag provides plenty of room for race day essentials such as rain gear, accessories, spare clothing and shoes.

All pieces come in black with red trimmings and include pockets and sections designed to help organize race gear and travel essentials.

The new line is rounded up with two saddle bags in different sizes.
